2014 Accredited Graduate Conversion Courses

These courses are provided by a number of institutions to enable graduates in other disciplines to gain adequate coverage of the required subjects to satisfy the educational requirements for entry to the CA Program. The courses vary considerably in their mode of delivery, award offered and fees payable. Students must have successfully completed a recognised undergraduate degree or Masters degree, in addition to the graduate conversion course. Some universities will allow students to do single subject from this list. Other universities require the full degree and in these cases students should discuss exemptions/credits with the universities concerned.
